

# Quality Custom Plastic Extrusions

Since 1976, Fowler Products' 50,000 sq. ft. facility has been producing quality plastic extrusions for various industries throughout the U.S

For an optimum outcome, CAD Engineering capability permits in-house die and customer design requirements.

**Warranties:**

All products are warranted by Fowler, as the manufacturer, against defects in materials and workmanship presented to it within sixty (60) days of receipt of the order by customer. Liability is limited to the replacement of the product which, after the manufacturer's examination, is found to be defective, Fowler specifically disclaims liability for any and all consequential damages. It is important that the product be installed and used only for those purposes intended by Fowler. Therefore, any installation or use contrary to that intended shall invalidate the warranty otherwise applicable.

**Prices:**

ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE. We will try to hold current prices as long as possible. Prices are FOB shipping point and do not include any taxes, which will be added wherever applicable.

**Terms of Sale:**
